

Partnering with PeaSoup

How can PeaSoup help you to boost your annuity business without investment?

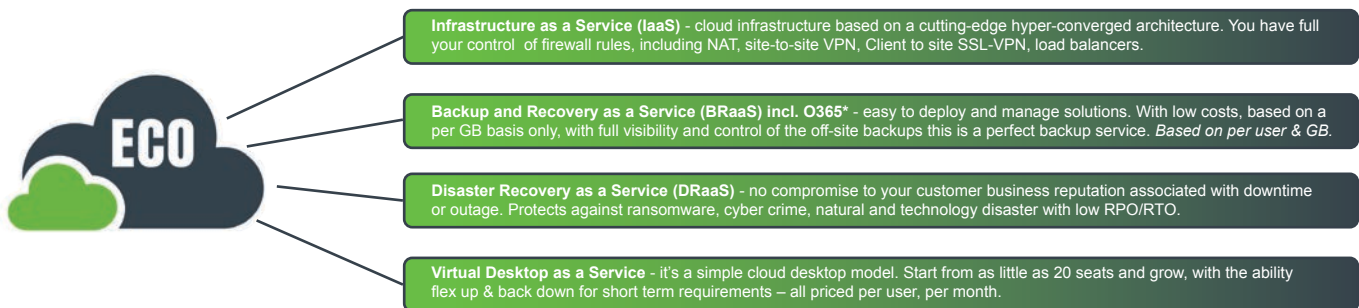

Are you looking to boost your annuity business? Or take a new cloud service offering to market? Our as-a-service(s) lets you do both, without up-front costs or risks.

Our partnerships are based on the transparency of transactions, trust, mutual expertise and the creation of strong relationships - all key to driving long-term recurring revenue.

We've teamed up with the world's leading vendors to provide the best, tried and tested services to our partners, allowing you to offer your customers the range of cloud services to suit. The end result is that you deliver the services to fit their needs.

Partner benefits

- **ECO Cloud** - we use ecological data centres to power our cloud infrastructure. We're proud of using green data centres reducing up to 50% of carbon emission compared to the traditional air-con cooled buildings.
- **Profitability** - we work alongside you to create a new line of revenue, adding a new revenue stream and win new business. We offer up to 30% margins with a reward scheme for long-term contracts.
- **Competitive Pricing** - our competitive pricing is simple, transparent and easy to understand. Your customer can budget accordingly to what they need and use.
- **Service Level Agreements** - our end-to-end SLAs guarantee the reliability and performance of our platforms. Our real 99.99% uptime *includes planned maintenance. No caveats, no small prints.
- **24/7/365 Assisted Service Desk** - our partners have access to PeaSoup 24/7 service desk.
- **Secure and UK hosted** - our cloud infrastructure is secure and hosted from the UK only. For each partner we sign a non-disclosure agreement to ensure your business is fully protected.
- **Dedicated Partner Team** - our tech team will support you through the full sales cycle, helping you to understand our services, working with you to implement and support your customers.

Become a PeaSoup Partner today

Grow your revenue by offering to your customers a comprehensive cloud service delivered through the market expertise and great customer service support. We are looking forward to working with you.
